A Severe Charge against Queen Victoria

NEW YORK, Feb 2—In reference to a statement made recently by Parnell that Queen Victoria contributed nothing in 1847 to the Irish famine, denial of which statement by Lord Randolph Churchill, was cabled here Parnell has addressed a letter to the New York Herald in which he says: In reference to Lord Randolph Churchill's contradiction of my statement that the queen gave nothing to relieve the Irish in 1847 I find that I might have gone still further, and said with perfect accuracy that not only did she give nothing but that she actually interfered with $6000 of donation which the sultan of Turkey desired to contribute to the famine fund. In 1847 the sultan had offered a donation of £10000, but the English ambassador at Constantinople was directed by the queen to inform him that her contribution was to be limited to £4000, and that the sultan should in good taste not give any more than her majesty, hence that the famine fund was less £6000 by the queen's action

Supreme Court Decision in the Rio Grande Railroad Case

A decision was rendered in the United States supreme court this afternoon in the case of the Denver and Rio Grande Railway Co. vs. Canyon City and San Juan Railway Co., upon a petition for a writ of mandamus. A writ was asked for by the Denver and Rio Grande Co upon the ground that the United States circuit court for the district of Colorado had disregarded the mandate of this court in its decision of the points at issue last term. This court, however denies the petition for a mandamus, upon the ground that as to the substantial matters complained of the Denver county circuit court was at liberty to exercise its judicial discretion and that in such cases the remedy for errors committed was by appeal and not by mandamus. This court however declines to express any opinion as to whether the decree of July, 1879, and July 1880 contained errors to the prejudice of either party. But as the rights of the Denver company will cease under the provisions of the act of congress in 1882, as to portions of its road then unfinished, this court considers it its duty to afford the parties an early and final determination of their controversy upon its merits. It announces that upon perfection of the appeal and upon filing a transcript it will hear [illegible] to advance the cause for consideration during the present term

PASSENGER AND FREIGHT RATES REDUCED

The Policy and Prospects of the Pacific Mail Steamship Company

Increase of their China and Australia Business

Etc., Etc., Etc

(SPECIAL DISPATCH TO THE OREGONIAN

NEW YORK Jan 31—Papers to-day state that the Pacific Mail directors on Saturday afternoon, took the anticipated action and reduced passenger rates from New York to San Francisco from $130 to $75 and steerage rates to $35. A circular has been issued to shippers announcing that after February 11th, the company will be prepared to name rates of freight and make contracts for a year. The contract with the Panama railroad under which the Pacific Mail pays $60 000 per month for its entire San Francisco business remains in force and some of the directors even propose to fund the debt to the Panama company, by taking it upon themselves

NEW YORK Jan 31—The Sunday Times says that the Pacific Mail Steamship Company's directors held a meeting yesterday afternoon in their office and agreed upon the following form of circular, which is to be sent out to shippers at once

NEW YORK Jan 30

To the shippers of freight to California DEAR SIRS—You are hereby notified that on and after Feb 11 this company will be prepared to name rates of freight from New York to San Francisco via the Isthmus of Panama, and to contract for the same with shippers for a term of 12 months from that day. For rates of freight and other information apply to H. J Bulloy, superintendent at the office of the company at the foot of Canal street North river, New York. By order of the board

No definite schedule of freight rates was decided upon for reasons that the vessel sailing on the 10th is already full. Between now and the 11th another meeting will be held and the extent of the reduction contemplated will be determined. The new schedule which will then be drawn up will apply to the vessel sailing on the 20th which will either be the *Colon* or the *Crescent City* probably the former. It was decided yesterday however to cut down the fare of steerage passengers five dollars more below the amount previously stated. Rates will be $75 for first class and $35 for steerage from here to San Francisco, and these go into effect at once. The fact that the company expresses a willingness to make contracts for 12 months ahead was pointed to yesterday afternoon by one of the officers as a proof of the unalterable determination to carry on to the bitter end the war now begun with the railroad companies. The existence of such contracts would he said, leave no loophole for a compromise and merchants therefore might rest assured that the days of extortion from them have passed forever. The directors of the company were he asserted firmly convinced that this was the only remunerative course for them to pursue. Under the old contracts with the railway companies the steamship company was allowed 600 tons of freight per vessel, and to get around this the railway companies were in the habit of sending lots of scrap iron and other undesirable stuff and if the steamship company refused to carry the material claim was set up that it had violated its part of the agreement, and when it sought to get the money under stipulation it was refused. Disputes over this question were constant, and the result was that the steamship company was glad to compromise for whatever it could get. Under the contract with the Panama Railroad Company the steamship company pays the latter a fixed sum of $60 000 per month for San Francisco business, and consequently it will cost no more to transport across the Isthmus 100,000 tons of freight and 90 000 passengers than it would five tons or five passengers. Should, as is expected the new order of things result into largely increased business, the company has prepared to meet it by entering into a contract with John Roach & Sons whereby these gentlemen agree to furnish all the first class vessels, equal in size and appointments to the *City of Para* and *Rio De Janeiro* that such increase may make requisite. During the past year the Chinese traffic of the company has largely increased both ways and on the last trip of the *City of Peking* the total receipts were $138 000, of which $80,000 dollars was net profit. Australian business has also more than doubled, and the indebtedness of the company has been decreased so that it now amounts all told to less than $1 800,000 of which $1,400 000 is due to the Panama Railroad Company. A proposition is now under discussion to fund this indebtedness, and thus lift the bill of sale on the property of the company given to the Panama Railroad Company at the time of the purchase of the vessels of the Panama Transit Company

PARNELL BEFORE THE HOUSE

An Evening Session and an Address by the distinguished Visitor.

(SPECIAL DISPATCH TO THE OREGONIAN)

WASHINGTON Feb 2—It was near 8 o'clock when the speaker called the house to order. Very few were present but seats of the absentees were occupied by ladies and the galleries were closely packed with spectators

The speaker gracefully introduced Charles Stewart Parnell of Ireland [clapping of hands]

Parnell said that the American Republic opinion would be of the greatest importance in enabling them to obtain a settlement of the Irish question. He proceeded to speak of the entire land in Ireland as being the most pressing question of that country and quoted the testimony of the historian Froude against the principle of private property in land. He also quoted approvingly the New York *Nation* against the idea of immigration as a remedy. He proposed to imitate the example of Prussia and other continental countries where landlord tenure had been tried, found wanting and abandoned. He proposed to give an opportunity to every occupying farmer in Ireland to become the owner of his own farm. He referred to John Bright's proposition for a company to advance money for the purchase of Irish farms and criticised Bright for shirking from asking parliament to sanction that principle. In conclusion he said that it would be a proud boast for America if she by the force of her public opinion alone and by the respect with which all people look upon any [illegible] in America to [illegible] without shedding one drop of blood without swinging a sword without one threatening message in aid of a solution [illegible]. He was proud and happy [illegible] the way he mentioned [illegible] her way. America would be an important factor in the solution of the Irish question

An Administration without Scandals.

[From the New York Herald]

If there is a bright side to the recent gloomy pictures of embezzlement and misappropriation of funds it is to be found in the absence of such scandals from the administration of the federal government. The government besides collecting and disbursing an annual revenue of between $250 000 000 and $300 000 000, has made gigantic transactions in loans and during the last three years there has not been a conspicuous case of defalcation or embezzlement by any federal officer. At a time when we have so many painful and startling disclosures of private demoralization we should not fail to recognize the remarkable integrity which prevails in the administration of the national government. We have never had an administration which deserved higher praise in this respect than that of President Hayes and all honest men should feel a sincere pleasure in paying it this tribute

A Matter of Charity.

[From the Burlington Hawk Eye]

It isn't that we don't sympathize deeply with the people for whom Parnell pleads, and to whom he lets on his own estate at ruling rates, but when he gets all he wants we wonder what the next fellow from Europe will want? Isn't this part of the world getting to be pretty nearly old enough to take care of itself? And if it isn't hadn't we better adopt it and bring it up right in the family? So long as we have it to support it would be cheaper to support it under our own domestic laws and regulations

Has a Reason for His Opinions

[From the Chicago Times]

There is a darkey down in Carolina who isn't a bullionist and is eager for the greenbacks as the most ardent of the party. THE TAX QUESTION

To [illegible] the Oregonian

[illegible] to think ourselves [illegible] providing for [illegible] of property [illegible] its [illegible] value. The language [illegible] property [illegible] as follows

Land [illegible] the [illegible] in the surrounding country the quality of soil its convenience [illegible]

All the personal property not exempt from taxation shall be valued [illegible] cash

[illegible] cannot make this strong [illegible] as that of Mr Watts bill which was somewhat common [illegible]

[illegible] cash value shall be what it would be appraised at if taken in payment of a debt in both cases the "cash value" must be left to the judgment of the assessor. Our law now provides that all property shall be valued at its true cash value. No enactment can do more unless it declares all land shall be valued at a certain sum per acre all horses and all cattle etc, at a fixed price per head town lots and all species of property at a specific sum. Of course that is impossible. The true cash value has got to be left, under any law, to the judgment of the assessor as it now is. And no law can be devised I think, in this particular better than the one we have. Indeed our tax system has been in the main copied from that of other states and is not a bad one with the exception of the sweeping clause respecting deduction of indebtedness. Under that, great and increasing abuses are practiced. The adoption of the New York and Massachusetts rule continuing the deduction of debts owed to debts due and I opine our system would be as good as any. The low or high valuation of property in the counties works no inequality if *all species of property* are rated equally low or high except that deduction in the different counties should vary. In such case the lowest valued counties would pay the lowest state tax. This should be remedied by a not too cumbrous state board of equalization whose duty it should be to compare the rating of various classes of property in the several counties and equalize them as far as possible and base the state levy upon such equalization

The southern claims commission will expire by limitation on the 10th of next March. It was organized in 1871 to adjust the claims of southern loyal citizens against the government for stores and supplies furnished the union armies. Property destroyed or damaged buildings used etc are classed as casualties of war, and not allowed by the commission. During the nine years of its existence it has examined and passed upon an enormous number of claims, and has saved the government a vast amount of money

e is no daily democratic [illegible] y note or standing The [illegible] ea are republican and [illegible] ender In former years [illegible] ingly democratic but as it [illegible] d not develop into a great [illegible] democratic organ [illegible] cast off [illegible] and came out the organ of all par[illegible] and the supporter of none Yet in this [illegible] of journalism it has dealt the never learning never forgetting and always blundering bourbon democracy more trenchant blows than almost any journal in the country Thus [illegible] northwest as they call the great region with its ten millions of inhabitants whose business politics and all other interests center at Chicago has no democratic daily worthy the name of a newspaper Now comes the *Illinois State Register* Springfield saying

A movement is on foot to establish in Chicago a strong daily democratic newspaper It is understood that the enterprise will be largely backed by capital and that the editorial management will be conducted by a journalist of recognized ability A democratic daily newspaper is greatly needed in Chicago and if started under experienced editorial and business control sustained by capital it will be a great financial and journalistic success It is reported that $200 000 in cash will be staked upon the enterprise

Of course no scheme like this is talked of seriously by anybody who has money to put into it Nothing could be more visionary than the idea of starting a daily paper in Chicago with $200 000 staked upon the enterprise It would require $100 000 to equip such an establishment so as to issue the first number and $100 000 more would not last beyond the first year A new journal to get business, would have to be as good and thorough a newspaper in all departments as the journals of long standing now published in Chicago and it would take a long time to bring it before the public and establish confidence in it. Nothing would be easier than to dissipate a cash capital of half a million dollars in such an undertaking, and then have a piece of property which was still absorbing at the rate of $50 000 a year or more Besides Chicago is not a good field for a great daily democratic newspaper or the *Times* would not have ceased to be democratic There are, indeed few places where great democratic dailies can be sustained There is one such paper in New York one in Cincinnati and one in St Louis and this about exhausts the list Below this rank are papers of the class of the Boston *Post* and Louisville *Courier-Journal* And below them again is the great multitude of journals, on the descending scale to infinity and nothing We are speaking now of democratic journals Of great republican papers of course there are many more while of republican papers of the second class the number is almost beyond enumeration The independent press holds a position of its own and on the whole is growing in esteem and power Its strongest representatives, as the New York *Herald* and the Chicago *Times*, are at the very head of journalism, and occupy as business enterprises a position which can not be assailed Owing to the growing excellence of established journals, the increasing cost of obtaining and publishing news, the rapid extension of journalism into new fields or departments of reporting, the cost of outfitting and running the new machinery which the fast work of the present time requires, the increased force necessary in every department, being double what it was a few years ago, and the necessity of supplying the demand for full information by telegraph from all directions, omitting no important feature of commercial, political, social, religious and general news, the outlay necessary to publish a good daily paper which shall answer the requirements of the times, is far in excess of what it was only a few years ago Five or six years since, three daily morning papers, THE OREGONIAN, *Bulletin* and *Herald* were published in Portland THE OREGONIAN now expends for news a great deal more money than all of them, taken together, expended at that time, and it furnishes twice as much news as all of them furnished together. Other expenses of publication have increased in proportion to the larger expenditure for news which all newspapers worthy to be called such have found it necessary to incur Hence to start a newspaper now is a very different thing from what it was to start one ten years ago. True enough, journals which are but poor apologies for newspapers are frequently started, and maintain a kind of miserable existence by beggary, by hiring out for jobs at anything they can get, by levying contributions, or by advocating special interests, but such journals are mere "organs" and never prosper, because they are not newspapers, and because they are of no use to the public and are not wanted by the public On the other hand, the growth of good and well established daily newspapers during the last few years is one of the most noticeable things of the time. Local weeklies do, indeed, multiply, especially since the "patent outside" business came into use, but in the case of daily newspapers, on which the public must depend for intelligence of every kind, the tendency is decidedly toward improvement of those journals which are well established and which have business and standing rather than towards starting or encouraging new journals, And this is but natural, since it takes so great an outlay now to establish a complete newspaper and wait for returns that few who know anything about the business are willing to venture any money in it

THE STEEL RAIL SWINDLE

Gov Gear, of Iowa, the republican governor of the most stalwart republican state in the union, a few days ago in a message to the legislature of Iowa, gave voice to the almost universal sentiment of the people of his state and of the west generally, by urging a memorial to congress asking a repeal of the duty on steel rails He said "To a state whose products are in the main agricultural as are those of Iowa anything which enhances the cost of railways, thereby, even incidentally in the least degree increasing the expense of the transportation of her products to the sea board, which is her great market is a question of great interest to all In view of their greater strength and durability which lessen the cost of replacement, all the great trunk railway lines of the country are adopting Bessemer steel rails. The manufacture of this class of rails in the United States is controlled by a combination of not exceeding—I think—ten firms in number This combination is protected by a high and specific tariff, which prevents the importation of foreign rails to any extent, thereby increasing the cost of the railways of the country It may be questioned whether it is wise legislation by a tariff exceptional in its character to put immense profits into the pockets of a monopoly composed of but a few persons at the expense of the farmers of the whole west This is well put It will suit for the Pacific northwest as well as for Iowa The tax on steel rails is equivalent to a heavy direct tax on our farming lands and farm products The claim of the democratic party that it is a free trade party is a false one else it would grant this relief, since it controls legislation

TAXATION

Before the American social science association held at Saratoga in 18[illegible] William Minot of Boston read a paper on the principles of local taxation which was subsequently published among the transactions of the association In this paper the broad ground was taken that only visible and tangible property should be subjected to taxation and that every effort to tax credits should be abandoned The argument is that to assess and levy upon credits—in other words that which is invisible and intangible—is a false duplication of our real wealth that exemption of this fictitious property from valuation would do away at once with double taxation with all the devices by which property is concealed or deductions claimed from tangible property with habitual perjuries and with all the inequalities and fallacies which now vitiate our whole economy of local taxation To the objection commonly urged against such a change that by it some wealth would escape taxation there is this answer Suppose that every state were to tax all the visible and tangible property within it that is all the land all the material products of labor all the money and live stock in a word *all that exists* what is there left to tax? Is there any other real wealth If all this above enumerated is removed or destroyed what will become of the other forms of so-called personal property? Take away the railroad, and what becomes of its bonds? Take away the land and what becomes of the mortgage? But the railroad and the land are real and will exist though you destroy the bond and the mortgage To the objection that by this change some men would escape taxation the answer is simple and obvious It is immaterial whether men escape or not It is wealth which is taxed not men and if all wealth be equally and certainly taxed every man must surely pay according to the wealth he uses It is of no consequence to whom the bill is sent or through what channel the tax comes in

Our law commits the double fault of attempting to tax the use of credit and of allowing deductions of indebtedness The result must always be unequal for on the one side there is the vain attempt to tax what is movable and capricious often largely fictitious and ever shifting in character and on the other side this fictitious ever shifting fugitive and intangible thing is allowed by simply reversing the relation of creditor and debtor to be deducted from and diminish the amount of actual property which should be subjected to taxation Thus through an attempt to catch some property, or supposed property which it is feared will escape taxation we lose an incalculable amount of actual property which justly ought to pay taxes and upon which taxes might easily be collected

One sells lands or goods for a price to be paid hereafter and takes a note to secure payment of that price This memorandum neither is nor makes new property yet it is taxed, or an effort is made to tax it. And thus we are reduced to the absurdity of depending on universal honesty to discover property which does not exist, in other words of attempting to assess and levy upon that which is invisible and intangible On his side the debtor deducts all this from his visible property What wonder that the aggregate is so low?

It may be possible to tax a mortgage because it is a matter of record, but it is almost the only form of evidence of debt which can be reached at all The common promissory note passes from hand to hand, the maker does not know who is the holder at any given time and every attempt to follow it up so as to subject it to taxation fails. Yet it is in debtedness within the state or supposed to be and the maker of the note deducts it from his valuation. It would seem to be good policy to abandon the effort to tax any evidence of debt, mortgages perhaps excepted and to cut off all allowance of deductions on on account of liabilities, at least to the extent of the principle of the Massachusetts law heretofore stated

The communication of Mr William Reid published in the *Evening Telegram* on Saturday, to which reference was made yesterday by THE OREGONIAN, appears in our columns as an advertisement this morning with an introductory note by Mr Reid stating that it is "a copy of the article which THE OREGONIAN said ought not to have been published" Again Mr Reid's warmth and haste have led him into error Had he only allowed his excitement to subside, so that he would have been able to read with his usual attention and acumen, he would have seen that THE OREGONIAN did not say what he fancied he read in its columns What it did say was merely that it was hardly worth his while "to fly into a passion to denounce or deny a practice which he admits his company followed up to two years ago" It did intimate, however, that *another* communication of his, in which he claimed that his bank had been misrepresented, and proceeded to right it by misrepresenting the bank of Ladd & Tilton and the First National, ought not to have been published in that shape and doubtless by this time Mr Reid thinks so himself Another, and a very childish delusion Mr Reid is laboring under, as we judge from editorials in his "organ"—the organ which attacked his business and vilified him till it got certain loans, after which it became his champion That delusion is that the other banks of the city, aided by THE OREGONIAN have tried and are trying every means in their power to drive the Scotch bank out of Oregon" Mr Reid could scarcely make himself more ridiculous than by saying this puerile and absurd thing It is to be hoped that he will recover his mental equilibrium and customary good sense Neither he nor his bank is in anybody's way

Repeated outrages have been perpetrated on individuals and on the public by seizure under color of legislative or judicial authority of private messages entrusted to our telegraph companies for transmission The Western Union Company has made many efforts to protect the messages passing over its lines from unreasonable search and seizure justly demanding that such messages be protected to the extent of the protection accorded to letters which pass through the mails Such efforts have heretofore failed but the company have now prepared a bill which has been offered in congress by Senator Saulsbury designed to enact that messages by telegraph shall have the same immunity as letters by mail It is a bill which ought to pass The public have really more interest in the proposed legislation than the telegraph company can have and the bill ought to pass No citizen can tell how soon his business and social telegrams are to be dragged to light and made public when every legislative committee fishing with its drag net claims the right to seize and overhaul them

It appears that the republican executive committee of Allegheny county Pennsylvania has selected delegates to the republican convention of that state which convention will meet at Harrisburg to morrow and that the delegation is for Grant This a re[illegible]t which might be expected [illegible] Had the delegates been chosen by the party instead of being appointed by a committee fixed up for the purpose the result would probably have been different The delegation from Allegheny county next to that from Philadelphia is the largest sent by any county of the state Senator Cameron thinks a majority of the delegates will be for Grant with Blaine as a second choice It is amazing that any person who really desires the success of the republican party should be willing to jeopard it by going against the traditions of the country which restrict every aspirant to the presidency to two terms Should Grant be nominated [illegible] he will [illegible] vote for him [illegible] by [illegible] this is an

A letter from Mr W [illegible] W[illegible] [illegible] a very proper rebuke of the misrepresentation of [illegible] a paragraph which recently appeared in the [illegible] The rest however was as any one could see that the [illegible] correspondent was not writing an actual and truthful account of what he saw—if indeed he was at Philadelphia and saw anything—but that he was simply [illegible] to show his smartness and furnish what his paper was likely to suppose was a piece of fine writing It is a common vice of those who write to fill space and who regard all simple and plain speech as dull to treat every subject whether trifling or serious in a frivolous bantering way It is easy as lying, even when it is not downright lying itself

Mr Tilden has been speculating heavily in [illegible] He has cleaned up on the rise a neat little campaign fund of $1 00 000

CITY.

THIEVES ARRESTED — For some time past a number of raids have been committed on hen roosts in the northwestern part of the city. Nearly every night a raid would be made on some roost and a lot of fowls carried off. Officers Hudson and Stephens together with Chief Lappeus have been in that portion of the city investigating and yesterday they succeeded in tracking and arresting two of the chicken thieves. Their names are Charles Granier and Harry Jones, alias Williams. The prisoners are both young men. They were found in a small cabin [illegible] and Stephens in a small cabin near F and Fifteenth streets. In the cabin were found a large number of fowls which had evidently been stolen. Blood was found near [illegible] recently picked. Quantities of feathers. On [illegible] examination of the premises [illegible] were found scattered [illegible] heads of several fowls. There seems to be no lack of evidence as to the guilt of the defendants. A number of witnesses have been summoned and the case will be tried to-day in police court.

AMUSEMENTS.

ENGAGED —W S Gilbert when he wrote the comedy of Engaged made an achievement He presented a play overflowing with genuine humor refined and delicate and avoided all the broadness which characterizes farces The play is a stinging satire on the laws of Scotland relative to marriage and abounds in every scene with the most mirth provoking situations The scene of the hero making love to two young ladies at the same time one in each arm and each lady entirely satisfied is worthy of the name of an invention The play is brimful of such ludicrous scenes and kept the large audience in roars of laughter at least half the time

Mr Geo D Chaplin who assumed the role of Cheviot Hill a young man of property who falls in love with every pretty face he meets has a fine stage presence a rich voice and a finished grace in every motion which stamps him as a finished actor He [illegible] avoided all ranting and gave his part in a quiet dignified way that was particularly pleasing Of the company it must be said that it is one of the best chosen that ever appeared at New Market Mr Lindsay and Miss Adams are not strangers to Portlanders and showed that they had not lost any of the art which gave them popularity in former seasons On the three actors mentioned the success of the play in a measure [illegible] and they with the remainder of the company made it a grand success

Miss Granville and Mr Simmons two excellent comedians made an interesting excessively funny piece of the worn farce A Stage Struck Tailor and showed themselves well able to fill their respective positions in the company The orchestra under the leadership of Mr Charles Bray was a pleasant feature and added no little to the evening s entertainment To those who appreciate the highest style of comedy presented with elegant stage appurtenances the play of Engaged which will be repeated to night offers a most enjoyable treat Manager Maguire promises to have the theater suitably warmed to night many complaints having been made on account of the lack of warmth in the building

Taxation.

PORTLAND Jan 31 1880

TO THE EDITOR OF THE TELEGRAM

I beg to assure the First National Bank and Ladd & Tilton that I had no desire whatever to challenge their integrity or doubt their tax statements. What I did was merely to publish in self defense the official statement procured by me from the county assessor of the various state and county taxes paid by all the banks in this city including our own (which shows no taxes paid by First National Bank) in order to refute a malicious attack made by a correspondent in THE OREGONIAN (who had not the courage to sign his name or even a cognomen), to the effect first that our bank paid no taxes whatever and second that our borrowers at the same time deducted every dollar from their property returns of their indebtedness to us payable at Dundee Scotland a statement which the writer, whoever he was knew to be false If the *Oregonian* had as it ought to have done asked me before publishing that malicious letter whether the statements therein were true, neither the names nor statements of taxes of the First National nor Ladd & Tilton or any other bank would have been published But I was bound for the protection of the interests of our bank to show by comparison with the other banks tax returns that we paid our share of taxes equally as they did Pardon me in saying one word The taxes which all national banks as corporations do pay to the United States are no more and no less than what all other banks in this city pay to the United States for the same facilities including our own bank, excepting this that national banks are not required and do not personally pay any State county or city taxes as the other banks in this city do The taxes which our bank offered to pay and do pay on $100 000 were entirely gratuitous as there is no law to compel us to pay any taxes whatever

When in Philadelphia last week I visited the [illegible] Permanent Exposition [illegible] dried fruits [illegible] produce something besides [illegible] and poor photographs [illegible]

All this [illegible] may be true [illegible] would have extended [illegible] explorations far enough, and sifted thoroughly through the twenty five hundred exhibits covering an area of twenty [illegible] acres [illegible] found [illegible] discovered intact the same Oregon exhibit which attracted so much attention during the great Centennial Exhibition and which received the highest encomiums and eulogistic wonderment from visitors not only of our own but of foreign countries

The exhibit covers more than double the space allotted for us at the Centennial being now forty feet square with an alley or walk on either side and the cereals and seeds woolens and minerals grasses and grains flours and flax flour and fish are all placed in five large glass cases one case being thirty feet long four wide and six high while the others will average about six feet square and eight feet high grained and varnished locked and secured

The elk and deer heads the maps and leather and transverse sections of the different kinds of timber indigenous to Oregon, etc are placed in different parts of the exhibit where utility or beauty might suggest as appropriate

REMOVED. THE COMPOUND OXYGEN TREATMENT FOR THE CURE OF ALL CHRONIC DISEASES.

PROF REES has fitted up offices on corner of Yamhill and First Sts.—No. 174, Room 2.

COMPOUND OXYGEN DOES NOT CURE BY THE SUBSTITUTION OF ONE DISEASE FOR ANother as when drugs are taken, but by an orderly process of revitalization. In the following list will be found the diseases which have proved the most amenable to Oxygen treatment: Consumption, Bronchitis, Laryngitis, Asthma. Dyspepsia in worst forms can be stopped with the Oxygen. Any fever can be stopped in 24 hours. Catarrh in the worst stages of the disease. Dyspepsia in every form, may be radically cured, also Neuralgia, Nervous Headache Scrofula, Paralysis and all Nervous Diseases.

PORTLAND, Or, Jan 11, 1880.—This is to certify that I have tried all kinds of Patent Medicines, which have failed as a cure in my case (I having a bad cold, which had settled on my lungs), when I was induced to try Prof. Rees' Compound Oxygen Treatment, which had the desired effect in two days, and in five days' treatment was completely restored to my sound health. JOHN ROBERTSON.

PORTLAND Or Jan 13, 1880 —Having taken treatment from Prof. Rees for a severe cold in the head, so bad that I could not breathe through my nostrils, and so severe on the lungs that I could not speak, when I was forced by friends to try the Compound Oxygen, with very little faith, but the first inhalation made me breath freely, and I am convinced that it is the best and quickest method known for to cure disease and I cheerfully recommend it to all who are suffering from a Cold or Catarrh in the head.

The Daily Oregonian.

TUESDAY MORNING, FEB. 3, 1880.

LETTER FROM WASHINGTON CITY.

REGULAR CORRESPONDENCE OF THE OREGONIAN.

WASHINGTON, D. C., Jan. 20, 1880.

DONNELLY VS WASHBURN.

This effort of the contestant to unseat a man having over 3000 majority is a proof of democratic necessity. He bases his claim upon bribery upon the part of Washburn, but the true explanation is, the democracy, if the presidential election should go into the house, will need Minnesota, and Donnelly would make the delegation from that state stand two democrats to one republican. There was never a more baseless claim. The case excites considerable interest here, because Washburn belongs to a family which come into the world branded with "M. C." and because of Donnelly's genius in getting up a row. The contestee is the youngest brother of the Washburn family, (all but the possible next president, Elihu B. drop the "e" from the surname) and now they have all graced the halls of congress. This family is Donnelly's pet aversion, and he is working like a beaver to efface the brand from his opponent, not expecting that the democratic house will dare transfer that brand to him, but believing that the people, at a new election, will do so. As a new candidate, he will be backed up by all the power and money of his party, but I do not think he can succeed. He will argue his own case before the house, if not killed in the committee, and then look out for some uproarious fun, under the cover of which the immediately following vote may result in his favor.

LEGISLATION.

Mr. Slater introduced a bill to declare forfeited the lands granted to the Oregon Central Railroad for a road from Portland to Astoria, and from near Forest Grove to McMinnville, and to restore said lands to the public domain.

Mr. Brents introduced a bill providing that all entries made within the limits of the Northern Pacific land grant prior to the time when notice of the withdrawal of the lands were received at the local land office shall be confirmed and patents issued therefor, and the railroad company make up their losses from lands within their limits.

Also a bill applying the land and several laws of the United States to Alaska.

Mr. Whiteaker introduced a bill to allow a drawback to be paid to those who export tin for canning purposes. The committee on ways and means will report in favor of Mr. Slater's bill, allowing a drawback upon all foreign goods used in canning.

Mr. Brents introduced a bill for the relief of Wm. H. Dodge, of Washington territory. He and his fellow heirs are entitled to quite a large body of land, which the general land office insists must all be entered at one time. He desires to enter his share thereof separately. J. Washington Turner is working up his case.

A Miss Phoebe Larkin, near Colfax, made a declaratory statement, and after that became Mrs. Raney, and as such proved up her preemption claim and paid her money. The general land office says though her money was regularly received at the Colfax land office, that, because she is a married woman she cannot have her land, and, worse than that her money cannot be refunded to her until Congress passes a bill for her relief.

Assistant Postmaster General Brady has been so hounded by the democrats for attempting to fully supply the country with mail facilities, by what is known as the "Star Line," that he refuses to grant any more mail service between Seattle, Tacoma and Olympia for which the Washington legislature memorialized.

The site of the postoffice of Artendale, Pierce county, Washington, has been removed, but the old postmaster has been retained.

PERSONAL MENTION.

Senator Grover is still at the springs at Danville, N. Y. He expects to return to Washington soon, but fears he will be able to do but little work this winter, as his troubles have quite prostrated him. (Don't want to say this, but he fears brain being upset).

Capt. Bendire of the post at Walla Walla is here enjoying a recreation.

Charges have been filed against W. Vawter, postmaster at Walla Walla, for two acts of gross negligence in sending registered letters to Boise City instead of to Portland. McKusick of San Francisco, superintendent of the coast postal service, recommends his removal.

Dr. L. S. Thompson, formerly of Jacksonville, a long time member of the capitol police, was removed last summer by the democrats, and has been quite sick of a dropsical affection. They are very hungry for office, having removed a doorkeeper after 40 years of service, and also a soldier who lost both his feet in battle. They have shown their retrenchment by adding 8 or 10 to the already large list of senate employes. They feel that the houses of congress are their only spoils, for Senator Slater tells me the administration is showing no favors to democrats.

Norman Buck, formerly district attorney of Idaho, finds barriers in his ambitious path to the bench of that territory. He had a spell of sickness last year, which, for a while, caused insanity, and the people believe he may again be prostrated in a similar manner, so they protest against his confirmation. His nomination as judge was not confirmed at the last congress, so the president has again nominated him. Judge Clark was nominated and confirmed, but charges of intoxication were brought against him, and Hayes withheld his commission.

The outlook in business matters is considered flattering. Capital in ample supply to support legitimate trade is readily obtainable, and some indications point to slight reductions in rates of interest. First class commercial paper is in demand, and discounts are being a little shaded off. There is a fair demand at the banks for money to invest in the purchase or improvement of real estate.

In the local markets there is a want of activity which is more especially felt in the wheat trade, though occasional transactions are noted about on the basis of our last quotations.

Other products are moderately active, and though the aggregate of the trade is, as is usual at this time of the season, rather small, there are no discouraging features in any particular line.

NEW YORK FREIGHTS AND MARKETS.

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW YORK, Feb. 2.—Freights via Cape remain quiet, and in fact the market is rather dull than otherwise, with no immediate prospect of improvement. Rates remain firm at the late advance, still there is a disposition not to let any lot of freight pass even at the lower figures. The tonnage movement the past month foots up four vessels registering 6241 tons, against five vessels of 7361 tons in the corresponding month last year against 4532 tons in the previous year. In departures for the month the vessel for Portland is not included, although in the following figures vessels under charter for that port are included, for the reason that some will find their way to San Francisco for grain. Loading tonnage on the berth and under charter for the trade, amounts to seven vessels for San Francisco and nine for Portland, together registering 21,652 tons. Of this number it is probable that six will be got off for San Francisco during the current month, while the departures for Portland will depend on deliveries of railroad iron to various vessels. The departure of the steamer has been postponed till the 12th, and no freight will be received till the 9th. This will be the last vessel under the present arrangement and for these to follow, a special tariff will be made in opposition to the Pacific roads. The mail company do not propose to enter into ruinous competition for lower classes of freights, but will make fair competition for finer classes of goods such as are sought after by the roads. By this the mail company hope to make a good freight list and at the same time increase their earnings. What the programme of the Pacific roads will be, is not yet learned, but that they will be compelled to protect their contracting shippers there is no doubt, as it is so specified in the bond.

The markets are not over active.

Breadstuffs firmer with a better export demand, especially for wheat at half a cent higher.

Barley unchanged.

Provisions quiet.

Pork and lard five cents higher.

Rio coffee dull, nominally steady.

Sugars moderately active, yellows firmer.

Teas firm.

Turpentine very quiet, 46½@47.

Petroleum neglected.

Dry goods active in most departments; prices very firm; strong indications of an early advance on various cotton goods, prints, dress fabrics, etc.

45 Years Before the Public.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros. of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast.

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

DR. BRENAN WILL GUARANTEE TO CURE any form of disease of the generative organs or private disease.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

such as SPERMATORRHEA or SEMINAL WEAKNESS or LOSS OF PERFECT VITALITY. Nearly two thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit these diseases to exist until their constitutions become ruined, their organization broken down, and the very future happiness blighted, until death too often is a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail.

Consultation free, and a list of printed questions sent to those living at a distance who cannot consult him personally. Enclose postage stamp for list.

GOOD HEALTH TO ALL!

No Opiates! No Calomel! No Poison!

An open question to all afflicted and suffering humanity.

WILL YOU LIVE OR DIE?

Easy as it is to be sick, just so easy is it to be well by availing yourself of the opportunity that is now offered to the sick by

DR. D. HALL McLENNAN,

Professor of Diseases of the Mind and Nervous System, formerly of Hall's Medical Institute, Boston, Mass., now permanently located at corner of Second and Ash streets, Portland, Oregon, two blocks from O. S. N. Co's landing at foot of Ash St.

DR. McLENNAN has, by his unwearied attention and extraordinary success, gained a reputation which calls patients from all parts of the country to obtain advice. And, without boasting, he can say that probably no other physician on the Pacific coast is treating at the present time so many cases of chronic diseases. The development of important and superior remedial agents and modes of cure have enabled him to succeed in thousands of cases where others have failed. The unparalleled success with which Dr. McLennan has treated them and the so-called "incurable cases," goes to show that no one should give up in despair, simply on the assertion of one, two or three physicians who had failed to effect a cure. It is with the hope of reaching many of this class that I advertise, and not alone from the profit it may deservedly yield me, but for the real satisfaction of doing good, relieving the pains of humanity, and sending hope to the hearts of thousands of afflicted fellow creatures who are enduring great suffering under the erroneous impression that they are beyond human skill. These, I am resolved, shall hear of me, and realize the truth of the saying that "while there is life there is hope."

Startling Weakness of Men and Women,

From whatever cause produced, permanently and radically cured in three to six weeks—a radical change for the better noticed in three days. Old men made young, and young men restored to the vigor of manhood. To those who are suffering I advise them to try me and doing so they will call that day blessed. The greatest secrecy observed. Names of such patients are not published, and only referred to by permission and by calling at my office. If you are suffering from any chronic disease, and your doctor or doctors have failed to cure you, I respectfully invite you to consult me; it will cost you nothing. By modern system of cure I am constantly relieving cases in which other methods utterly fail. Physicians having in charge cases that baffle their skill, or resist the ordinary treatment, will confer a blessing on such by sending them to my Medical Institution, occupying the two-story building on the northeast corner of Second and Ash streets.

Satisfaction guaranteed or money refunded. Letters plainly written, with full particulars, containing a self addressed envelope, will be promptly answered.

Flattering Indorsement.

From a lady well and favorably known in Portland, cured by Dr. McLennan after hope of recovery had been abandoned:

WASHINGTON, D. C.—I am entirely well, and feel no more of that weakness that troubled me for years, and for which I was unable to get relief until you brought me to Dr. McLennan's. He has done more for me than all the other physicians put together, and that too in so short a time.

MRS. MAJOR BELL.

Any information regarding this remarkable cure will be furnished by her mother (Mrs. Edgar), who lives at Room No. 2, Bacon's building, Second St., between Oak and Stark, Portland.

Another Remarkable Cure

Was the case of O. P. Mason, who suffered for years with a weak and lame back; curing that period could find no relief; was cured by Dr. McLennan in ten minutes.

NOTE—Mr. Mason is well and favorably known to all citizens of Portland as one of our most successful lawyers. His office is at First street, and can verify this statement for himself.

Success the Test of Merit—Another Remarkable Cure.

This is to certify that Dr. McLennan cured me of consumption and catarrh, after Drs. Oliver and Hatch, of Astoria, had pronounced my case beyond medical aid and advised me to come to Portland and go to the hospital. I came to Portland, but did not go to the hospital, as a friend who met me here advised me to go to Dr. McLennan. This was two months ago. I was then continually coughing up blood and matter. I have coughed none for five weeks and am fishing up every day. I now live at 49 Stark street, but my home is in Astoria. If anybody writes me concerning my cure I will answer the same.

Respectfully, E. R. DAILY.

The following parties, whose names and addresses are given below, can be consulted in reference to Dr. McLennan's great success. They have all been the victims of *wrong doctoring*, and never found relief, much less a cure, until Dr. McLennan treated them. Mrs. Daniel Cline, Scappoose, Oregon, gained 19 pounds in two months under Dr. McLennan's treatment. She says: "I have never felt so well for three years as I have the last two months."

Mrs. Captain Lincoln, of the ship "Coumseh, now stopping at room 7, St. Charles Hotel, suffered for 20 years with debility, dyspepsia and chronic inflammation of the stomach. She had doctored in England and France, and employed without success, some of the most eminent physicians in America. Completely cured by Dr. McLennan in seven weeks.

William White, No. 3 North Third street, Portland, cured of chronic consumption, and the following well known parties: Mrs. Mott, 180 Washington St.; Mrs. Freeborn, C St., bet. Third and Fourth; Mrs. Morris, Alder St., bet. Fifth and Sixth; Mrs. Still, C St., bet First and Second, and five thousand two hundred and three others, who do not wish their names made public.

The Utmost Secrecy Observed.

N. B.—Dr. McLennan may be consulted on all chronic diseases, such as catarrh, asthma, incipient consumption, disease of the heart, liver, stomach and kidneys. Cancerous tumors removed without causing pain or using knife. An immediate cure guaranteed in all cases of nervous diseases. Exhausted vitality, premature decline in man, impotency, etc., etc. Cures rapidly and permanently. Treatment invigorating, soothing and harmless. Charges moderate. Consultation free.

is now offering for sale nearly

5,000,000

Acres of its lands in the Pen d'Oreille Division in Eastern Oregon, which are comprised in the odd numbered sections for forty miles on each side of the railroad as now located from the mouth of Snake River, in Washington Territory, to Lake Pen d'Oreille, in Idaho. These lands, of unexcelled fertility, and adapted to farming on any scale that may be desired, are offered by the Railroad Company at such prices and terms as cannot fail to induce settlement and cultivation, causing a rapid growth in population of the country, and increase in value to those who now purchase.

The following Resolution of the Board of Directors of the Railroad Company, passed November 19th, 1879, fixes the cash price of land to actual settlers at two dollars and sixty cents per acre, which it is believed is a lower price than has ever been voluntarily placed upon its lands by any land grant company. This is, in fact, cheaper than the settler can purchase the same class of land of the Government under the preemption law, for the expense attending the making of final proof, and the journey to the land office which he must necessarily make in order to complete his entry, is more than the ten cents per acre added to the government price by the Railroad Company:

"*Resolved*, That the Agricultural Lands of the Company west of the Missouri river to Puget Sound shall be offered for sale to actual settlers at Government price of $2 50 per acre, with an addition thereto of ten cents per acre to be paid to the Company to reimburse it for the cost of selecting, surveying and conveying said land."

This resolution does not apply to coal or iron lands, nor to lands chiefly valuable for timber, nor to lands required for townsites or suitable for manufacturing sites, nor in regions where water is scarce to lands containing springs or other natural supply, where it shall be for the interest of settlers at large that such water privileges shall not be exclusively held or controlled by any individual; nor to the lands required for the use of the Company in connection with the operation of the road."

To persons wishing to purchase on time, the remarkably low rates of four dollars per acre is given on the following terms: One-fourth cash at time of purchase, the balance in three equal yearly payments at 7 per cent. interest. The above price for time sales is adopted for the present, but may be subject to change in the future.

All persons who have filed with the Railroad Company notices of intention to purchase, or "Settlers' Applications," as they are called, for land in this Division (except for the class of lands reserved by the terms of the resolution above given) and who have continued to reside upon or cultivate the land applied for, are requested to complete their purchase by making cash payment, or time contract, for the same. For this purpose application should be made to the Railroad Land Office at Colfax.

Persons who have not made actual settlement or improvement upon land they may have applied for, have no right to the first privilege of purchase; such lands will be sold to the first applicant. Those persons who have in good faith settled upon and improved the Company's land should lose no time in securing the same, as after a given time the land is subject to sale to any other person.

The land in this division being now offered for sale, no more "Settlers' Applications" will be filed.

MIDDLE AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito urinary organs.
